

# Tool selection chart

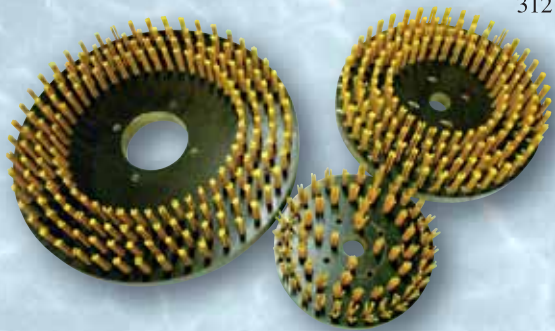

**S**ubsea Industries has designed a complete range of cleaning discs and brushes covering the most common applications. Purpose built tools can be specially designed to order. The tool groups shown below can be used with various types of machines according to the selection table.

The tools are identified by 2 groups of 3 figures xxx-xxx. The first group defines the type of machine, the second one the type of tool

## Rilsan

Grass, slime, small barnacles

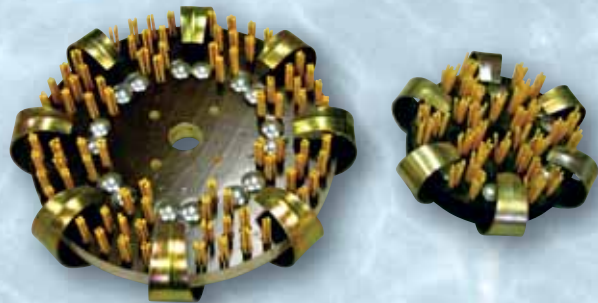

111 - 001  
131 - 909  
212 - 909  
312 - 909

## Rilsan scraper

Barnacles

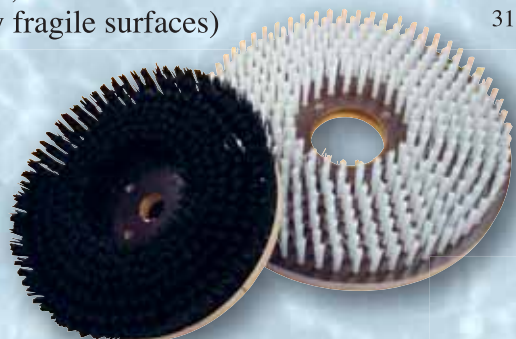

131 - 902  
212 - 902  
312 - 902

## Polyprop

Grass, slime  
(very fragile surfaces)

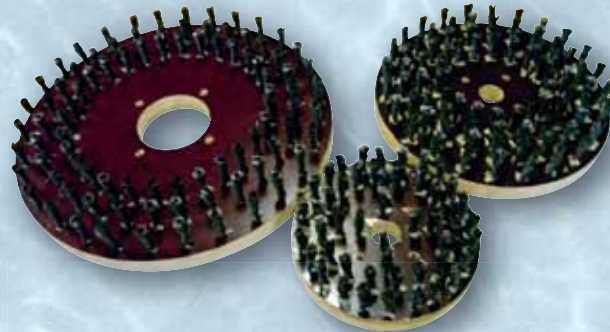

111 - 005  
131 - 910  
212 - 910  
312 - 910

## Steel wire

Hard, dense fouling

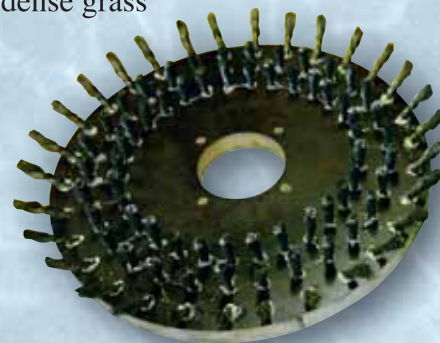

111 - 006  
131 - 907  
212 - 907  
312 - 907

## Steel grass

Thick, dense grass

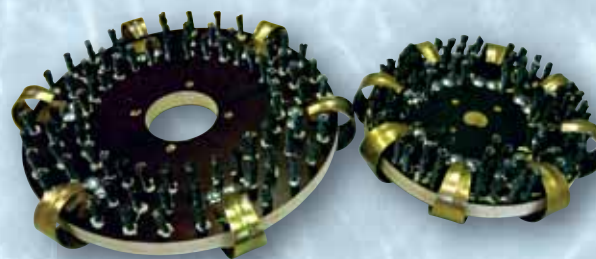

131 - 908  
212 - 908  
312 - 908

## Steel scraper

Very severe dense fouling

131 - 903  
212 - 903  
312 - 903

## Standard scraper

Extremely hard, dense fouling

131 - 901  
212 - 901  
312 - 901
